**Subject:** Re: revised facilitation support estimate

Hi David,

The contract ends on April 30, 2013. We will have an option to develop a new task order under a new contract after that date. I believe Laura needs this information as soon as possible in order to get the subcontract in place.

Hope this helps...

Jayne

**Subject:** revised facilitation support estimate

Jayne, Laura –

Jenny asked me to send an updated projection of our facilitation needs, based on revised meeting schedule. This sounded rather urgent, so the estimate includes meetings through September 2013, not knowing whether or not April was still a hard date, based on the national contract or other factors.

One critical question: is April the official end of the EPA Contractor support for the facilitation?

We are likely to make additional schedule revisions in early-mid January (and possibly in the spring), as we get better information to assess how to proceed on temperature TMDLs and the amount of stakeholder involvement needed.

Please let me know if you have questions.
